

## **The Alien Immigrant Song**

(copyright jim ocean 4/11)

Ah ah ahhhhhhhh ah ah ahhhhhh ah!  
Oh we come from the planet Rattatuk  
And we found your planet listed on 'SpaceBook'.

A lovely warming world  
That's just what we are after  
We've got the Deed  
So here we come  
To profit from your diiiiissaster!

They sang their war cries  
Through hairy snouts  
Their greasy scales  
Would just freak you out!

Ah ah ahhhhhhhh ah ah ahhhhhh ah!  
Oh we come from the planet Rattatuk  
And we found your planet listed on 'SpaceBook'

We'll poison all your clouds  
We'll sterilize your oceans  
We'll grow our food on what you loved  
To satisfy our alien emotions

Their mighty ships  
Tore through the heavens  
They cranked their warp drives up to eleven!

Ah ah ahhhhhhhh ah ah ahhhhhh ah!  
Oh, we come from the planet Ratatuk  
And we found your planet listed on SpaceBook!

They roared down through the clouds  
To realize our ruin  
Then disappeared into the ear of a cow  
As he was moo-in.....

Moo...Moo...Mooooo (repeat fade)
